PROFESSIONAL SUMMARY

Results-driven UI/UX Designer with 1.5+ years of experience designing user-centered web and mobile interfaces across healthcare, real estate, transport, and e-commerce sectors. Proficient in the complete design lifecycle — user research, wireframing, prototyping, usability testing, and frontend implementation using React.js. Adept at building scalable design systems in Figma that ensure consistent, pixel-perfect delivery across cross-functional teams.

PROFESSIONAL EXPERIENCE

UI/UX Designer *October 2025 – Present*

Koadai

- Designed and iterated responsive website experiences for multiple client verticals, ensuring consistency across all breakpoints.
- Conducted heuristic evaluations and usability audits to identify friction points and implement data-informed design improvements.
- Built and maintained scalable Figma component libraries, enabling pixel-perfect design-to-development handoff.
- Improved mobile usability through optimised touch targets, navigation hierarchy, and skeleton screen loading patterns.

UI/UX & Website Designer *June 2025 – October 2025*

BlueMinch

- Delivered high-converting, mobile-first landing pages aligned with brand guidelines and CRO goals.
- Produced interactive Figma prototypes for stakeholder reviews, significantly reducing revision cycles.
- Applied SEO-friendly layout principles to improve on-page engagement metrics.

Freelance UI/UX Designer & Digital Consultant for IT and Non-IT Businesses *July 2024 – June 2025*

Independent Consultant

- Collaborated with both IT and non-IT businesses to create impactful digital experiences and improve brand presence.
- Managed complete design workflows including UI/UX design, wireframing, branding, social media creatives, and responsive WordPress website development.
- Handled social media management tasks such as content planning, creative post design, and audience engagement.
- Delivered visually appealing and user-focused solutions that supported business growth and improved customer interaction.

Frontend Developer *November 2023 – May 2024*

Appycodes

- Developed responsive frontend interfaces using React.js and PHP; created reusable component libraries to accelerate delivery.
- Integrated REST APIs and collaborated with backend teams to ensure accessible, consistent data presentation.

CORE SKILLS

UI/UX Design

User Research, Wireframing, Prototyping, Usability Testing, Responsive Design, Accessibility (WCAG 2.1)

Design Tools

Figma, Adobe Photoshop, Canva, WordPress, Go High Level

Frontend Dev

React.js, HTML5, CSS3, Tailwind CSS, PHP, SQL

Collaboration

Cross-functional Teams, Agile Workflow, Stakeholder Communication

FEATURED PROJECTS

Tea Estate Website

UI/UX Design · Figma · Responsive Web

Premium brand website with immersive scroll layouts, earthy design language, and full Figma component library for developer handoff.

HealthNest Medical Landing Page

Healthcare UI · WCAG 2.1 Accessibility

WCAG-compliant healthcare page with high-contrast design system and trust-focused layout to improve appointment booking conversions.

Transport Platform Wireframes

UX Research · Information Architecture

Comprehensive 15+ screen wireframes reducing navigation complexity for a multi-segment transport platform.

Real Estate Website UI

Figma · Responsive Design

Property browsing experience with smart search filters, map-integrated listings, and mortgage calculator UI module.

SaveU — Emergency SOS App Redesign

Mobile UI/UX · Rapid Navigation

Redesigned critical user flows, reducing SOS action taps from 5 to 2. Prioritised accessibility for elderly and visually impaired users. behance.net/moumitapodder2
